PROJECTS

<u>Portfolio</u> — *React.js*

Tech Stack: React.js, Tailwind CSS, Framer Motion

- Developed a personal portfolio website using React.js to showcase projects and technical skills.
- Implemented Framer Motion for smooth animations and interactive transitions across pages.
- Used Tailwind CSS to design a fully responsive and modern UI with utility-first styling.
- Followed clean code practices with a component-based architecture for reusability and scalability.
- Ensured mobile responsiveness and optimized performance for fast loading and seamless UX.
- Deployed using Github pages.

SKILLS

Frontend Development -

React.js (React Hooks, React Router, Context API, State Management)

HTML (HTML5), CSS (CSS3), Tailwind CSS

JavaScript (ES6), TypeScript

Responsive Design

Backend & APIs -

Python

REST APIs

Tools & Platforms -

Postman, Git, GitHub

VS Code, PyCharm

Certificates

React full course - Udemy 2024

React-Native course - Udemy (ongoing)

Python - Udemy 2024

LANGUAGES

Hindi

English

Extra Curricular Activities

- Blood donation in Rotary Club , Moradabad
- Participated in

 Food distribution "Parivartan NGO Moradabad"

<u>Todo App</u> — *React.js*

Tech Stack: React.js, Tailwind CSS, Framer Motion

- Developed a Todo application using React.js to manage daily tasks with a clean and responsive UI.
- Implemented full CRUD functionality: users can add, edit, delete, and mark tasks as completed.
- Utilized Local Storage to persist data across sessions without a backend.
- Built with a component-based architecture to maintain clean and reusable code.
- Focused on state management using useState and handled user interactions efficiently.

E-commerce Website - React.js | Django | Tailwind CSS

Tech Stack: React.js, Django, Tailwind Css

- Building an e-commerce web application using React.js for the frontend and Django for the backend.
- Collaborating with a mentor to integrate Django REST APIs for user authentication, product management, and order handling.
- Implementing core features like product listing, user signup/login, and shopping cart using React Hooks and API integration.
- Designing responsive and modern UI with Tailwind CSS.
